5. Copy your API key in document.

ehungry:

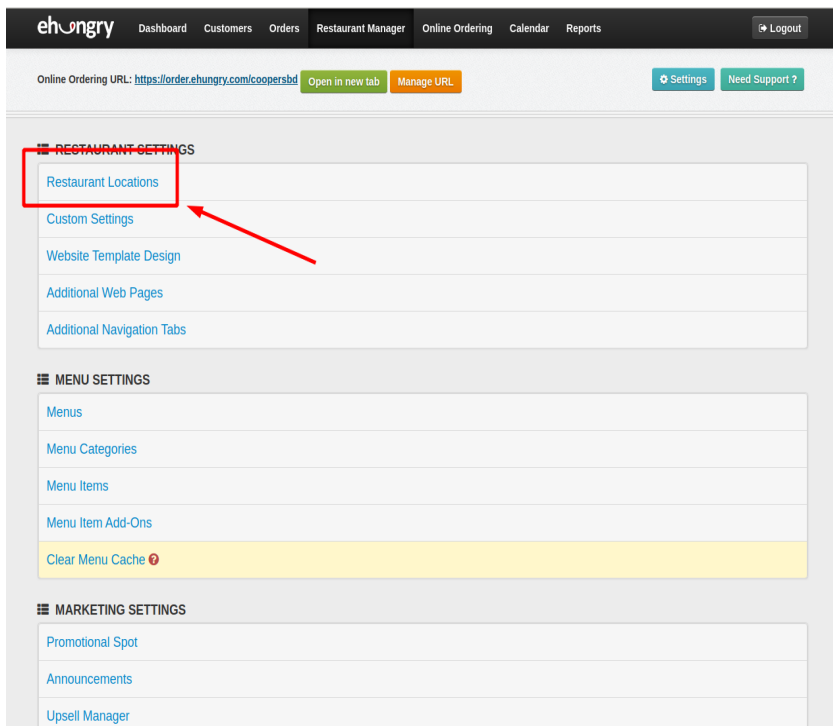

1. Create Account
2. Set up your Restaurant (Menu, Dishes, Address etc.)
3. Go To Admin “Dashboard”
4. Click “Restaurant Manager”

The screenshot shows the ehungry dashboard. The navigation bar at the top includes 'Dashboard', 'Customers', 'Orders', 'Restaurant Manager' (highlighted with a red circle), 'Online Ordering', 'Calendar', 'Reports', and 'Logout'. Below the navigation bar, there is a section for 'Upcoming Orders' with buttons for 'View All Orders' and 'Enable/Disable Ordering'. A table shows 'Orders Due Today' and 'Due Tomorrow'. There is also a 'Top Customers' table and a 'Recent Payments' section. At the bottom, there is a 'BASIC ACCOUNT DETAILS AND BILLING' section with links for 'Account Details', 'Manage Account Users', 'API Key', 'Billing', and 'Past Billing Statements'.

MM HH	Amount
MM HH	\$71.10
M.H	\$60.23
M.H	\$58.85

5. Click “Restaurant Locations”

The screenshot shows the 'Restaurant Manager' settings page. The navigation bar includes 'Dashboard', 'Customers', 'Orders', 'Restaurant Manager' (highlighted), 'Online Ordering', 'Calendar', 'Reports', and 'Logout'. Below the navigation bar, there is a section for 'RESTAURANT SETTINGS' with a red box around 'Restaurant Locations' and a red arrow pointing to it. Other settings include 'Custom Settings', 'Website Template Design', 'Additional Web Pages', and 'Additional Navigation Tabs'. There is also a 'MENU SETTINGS' section with 'Menus', 'Menu Categories', 'Menu Items', 'Menu Item Add-Ons', and 'Clear Menu Cache'. Finally, there is a 'MARKETING SETTINGS' section with 'Promotional Spot', 'Announcements', and 'Upsell Manager'.

6. Click **“change this”** link beside **“Currently Receives Orders by:”**

The screenshot shows the 'ehungry' dashboard for 'Coppers BD'. The 'Currently Receives Orders by:' field is set to 'Webhook'. To the right of this field, there are three 'change this' links. The bottom-most 'change this' link is circled in red, and a red arrow points to it from the left. Above the field, there are buttons for 'Deactivate this Location', 'Delete this location', and 'Duplicate this location'. Below the field, there is a green button labeled 'Edit/View Additional Details for this Location'.

7. Select **“Order Notifications”** tab

The screenshot shows the 'Orders Notifications for Coppers BD' page. The 'Order Notifications' tab is circled in red. Below the tab, there is a text box with instructions: 'The phone numbers below are used not only for the voice and SMS notification options below, but also to notify you when we are unable to send you an order through fax, printer or Google Cloud Print. If you use any of those methods, we recommend entering your phone number and/or mobile number below so we can notify you of new orders in the event those services fail (e.g. your fax machine is busy or printer is not connected)'. Below this, there are input fields for 'Phone Number (for voice notifications):' and 'Mobile Number (for SMS/Text Messages):'. A 'Same as above' button is next to the mobile number field. Below these fields, there is a section titled 'When a new order is placed:' with several checkboxes for notification preferences: 'I want to receive an email with the order ticket attached:', 'I want to receive a fax of the order ticket:', 'I want to auto-print the order using Google Cloud Print: (deprecated)', 'I want to have the order auto-print using the order monitor software:', 'I want to view orders using a mobile app (or web page) (optimized for tablets, great for paperless kitchens):', and 'I want to be notified with an SMS text message (includes a link to view)'. A red arrow points from the 'Order Notifications' tab to the 'Phone Number' input field.

8. Scroll down a bit and find **“I want webhooks with order details”** option under **“When a new order is placed:”** section and **select the radio button**

ehungry Dashboard Customers Orders Restaurant Manager Online Ordering Calendar Reports Logout

When a new order is placed:

- I want to receive an email with the order ticket attached:
- I want to receive a fax of the order ticket:
- I want to auto-print the order using Google Cloud Print; (deprecated)
- I want to have the order auto-print using the order monitor software:
- I want to view orders using a mobile app (or web page) (optimized for tablets, great for paperless kitchens):
- I want to be notified with an SMS text message (includes a link to view the order for up to 24 hours):
- I want to be notified with an automated phone call:
- I want webhooks with the order details:

Save main notification details

Additional Notification Recipients

If you wish to have copies of your orders or notifications sent to more than one email address or SMS number, please provide those additional addresses and/or numbers here. SMS Text message or Email must be enabled above for these additional notifications to be sent.

9. After selecting the radio button, a section with some input boxes will appear

I want webhooks with the order details:

[See webhook details and documentation](#)

Webhook URL:

Webhook URL:

Webhook URL:

Webhook URL:

You can setup multiple Webhooks. New fields are shown after saving.

Save main notification details

10. Put your integration **url** into a **“Webhook URL:” input box**
- for url see below
11. Click **“Save main notification details”** button
12. Done

Your Orders from ehungry will be delegated to Questtag once the order is placed by the customer in your restaurant portal.
